BALANCE SHEET.

In order to bring down the net general debt of the Province at the close of the fiscal period, the form of the consolidated balance sheet, Statement No. 1, has been arranged to show a classification of the various assets and liabilities. Working advances are brought out in the capital section of the balance sheet. Capital surplus and sinking fund reserves have been deducted in total from deferred charges and capital losses. Reserves arising from contributions of the Dominion of Canada and other authorities to unemployment relief work programmes have been deducted from assets created by the expenditures. Indirect liabilities are shown at a net amount after deducting sinking funds provided for the retirement of the several guarantees.

Public Debt:

Examination of the balance sheet shows that net funded and unfunded debt at March 31, 1934, amounted to \$144,548,662.80, as follows:

cluding in accounts receivable, at a conservative valuation, amounts due under leases or agreements. Capitalized value of Dominion of Canada subsidies has not been included in the Balance Sheet although there is a definite annual obligation on the part of the Dominion to pay certain fixed sums. Dominion subsidies capitalized on a 5% basis to yield the 1933-34 revenue from that source would represent a valuation of \$35,429,500.00

Subject to the foregoing remarks, and subject to provisions which may be necessary for depreciation of public works and undertakings, including the Alberta Government Telephones, or for losses arising from non-collection of loans, advances and accounts receivable, the above Consolidated Balance Sheet, in my opinion, is properly drawn up so as to show the true financial position of the Province at March 31, 1934.

Edmonton, Alberta, May 14, 1934.

I have audited the books and records of the Provincial Sinking Fund for the year ended March 31, 1934, and the above balance sheet is correctly prepared therefrom. All contributions have been made during the period in accordance with the various Statutes and Orders-in-Council in force.

Securities have been verified by actual inspection. Cash was verified by bank certificate. Accrued interest represents amount actually realizable if securities were sold. Book values of securities represent original cost with amortization of premium or discount calculated to March 31, 1934.

The above balance sheet represents cash and securities. The fund possesses an additional asset of \$477,716.41 representing statutory contributions accrued but not due at March 31, 1934. This amount was charged to and forms part of the expenditure of the Province for the year ended at that date.

I certify that, in my opinion, the above balance sheet is properly drawn up so as to show the sinking fund available and applicable to the redemption of the bonded debt of the Province at March 31, 1934.

JAMES C. THOMPSON, C.A.,
Provincial Auditor.

(a) Authorized values of the Dominion of Canada, Department of Insurance, for use in Insurance, Loan and Trust Companies, as published by the Dominion Government on January 2, 1934.

Edmonton, May 23, 1934.

I have audited the books, vouchers and records relating to the Special Investment Fund established under the provisions of Section 29 of the Treasury Department Act, for the year ended March 31, 1934, and the above statement of investments and accruals is correctly prepared therefrom. During the period all securities purchased, sold, or retained were checked and examined. Premiums and discounts have been amortized to bring all securities to par value at date of maturity.

Profit on operation of the Fund for the period is as follows:

Net revenue from interest received, less amortizations of premium and discount	\$170,955.94
Add: Interest accrued March 31, 1934, less accrued amortizations	47,013.07
Less: Interest accrued March 31, 1933, less accrued amortizations	\$217,969.01
Net interest earnings	53,231.28
Add: Net profit on sale of securities	\$164,737.73
Net revenue for the year	15,406.60
Deduct:	\$180,144.33
Interest on invested capital at average rate paid on Savings Certificates (4.4769%)	146,716.80
Net profit for the year ended March 31, 1934	\$ 33,427.53

Following the practise with respect to Provincial revenue, only earnings and profits actually received have been taken into general revenue account, but in order to prepare a correct statement of the earnings of the Fund, interest earned but not received has been included in the above statement.

I certify that, in my opinion, the above statement correctly summarizes all transactions relating to the Special Investment Fund for the year ended March 31, 1934, and states the securities on hand at that date.

JAMES C. THOMPSON, C.A., Provincial Auditor.

NOTE: In the preparation of the above statement, purely financial transactions in connection with the refunding of temporary loans, savings certificates, or debentures are excluded both from receipts and payments, otherwise both sides of the statement would be inflated by large figures of no practical value. For example, in instances where debentures were floated to refund maturing issues only the net increase in debt is shown under capital receipts.

(b) The statement was amended at March 31, 1934, to show subsidies and all refunds of expenditure from Dominion Government under this caption. Result of operations does not include Alberta Government Telephones.

The 1931 population factor was amended to show Dominion census figures.

Edmonton, August 24, 1934.

The above information has been assembled, under my direction, from the Public Accounts of the Province, and, in my opinion, correctly sets forth capital debt and revenue and expenditure on income account for the years stated.

Edmonton, February 3, 1934.

I have audited the books and records of the Workmen's Compensation Board, Alberta, for the year ended December 31, 1933, and the above Consolidated Balance Sheet is correctly prepared therefrom.

Cash in bank was confirmed by certificate from the Board's bankers.

Investments were verified by actual inspection. Securities on hand include Rural School District Debentures to the amount of \$183,433.47, of which \$36,500.00 are refunding issues to consolidate arrears of principal and interest.

No provision has been made for possible losses on uncollectable assessments or School District Debentures principal and interest in arrears, other than the reserve for contingencies.

The adequacy of the reserve for claims pending is contingent upon settlement for an average amount per claim, not greater than the average cost of past settlements.

Subject to the foregoing remarks, I certify that, in my opinion, the above Consolidated Balance Sheet is properly drawn up so as to show the financial position of the Board as at December 31, 1933, according to the information given to me and as shown by the books.

Edmonton, Alberta, May 14th, 1934.

I have audited the books and records of the Wheat Board Monies Trust Account for the year ended March 31, 1934, and the above Balance Sheet and accompanying Statement of Income and Expenditure are correctly prepared therefrom.

Investments in bonds and debentures consist of Lethbridge Northern Irrigation District 6% bonds due May 1, 1951, of a par value of \$29,000.00. The investments are shown at cost less amortization of premium to March 31, 1934. The market value at that date was approximately \$28,710.00. Investments were verified by actual inspection during the year.

Recovery of advances to the Alberta Oil Consumers Co-operative, Limited, and Alberta Co-operative Wholesale Association, Limited, is doubtful.

Subject to the valuation of investments and provision for probable losses on loans, I certify that, in my opinion, the above Balance Sheet is drawn up so as to show the financial position of the Wheat Board Monies Trust Account as at March 31, 1934, and the accompanying Statement of Income and Expenditure fairly states the result of operations for the year ended at that date.

Edmonton, October 25, 1934.

I have audited the books and records of the Alberta Government Telephones for the year ended March 31, 1934, and the above balance sheet and accompanying statement of earnings are correctly prepared therefrom.

Operations for the year, without provision for depreciation, resulted in a loss of \$342,187.32. Provision for depreciation on the former basis of 3 1/2% of plant in service would increase the loss by a further sum of \$753,648.64.

As pointed out in my previous reports, the utility has failed over a period of years to earn sufficient sums for depreciation. During the year under review, a study of the financial position of the system was made by an independent telephone engineer, and the above adjusted balance sheet shows what would be the effect of the recommendations contained in his report of April 21, 1934. The adjustments recommended have not yet been incorporated in the books and records, pending final consideration. If made effective, the investment in rural lines would be removed entirely from the balance sheet and the total capital loss of the utility increased accordingly. This capital loss, however, would be reduced by any amounts realized from the sale of rural lines or the value attaching to those continued in operation.

With respect to the investment in the toll and exchange systems, the existing depreciation and renewal reserve falls short of the amount required by standard telephone practice. An engineering inventory of plant in service is now in course of preparation and, pending completion of such inventory, the investment is shown at cost in the above balance sheet.

The pension fund is not arranged on an actuarial basis, and contributions which have been made to date may prove insufficient for future requirements.

Subject to the foregoing remarks, I certify that, in my opinion, the above balance sheet is properly drawn up so as to show the financial position of the Alberta Government Telephones as at March 31, 1934, and the accompanying relative statement of earnings fairly states the result of operations for the fiscal year ended at that date.

Edmonton, March 21, 1934.

I have audited the books and records of the Lethbridge Northern Colonization Manager and relative Treasury Department records for the year ended December 31, 1933, and Statements 112 to 117 inclusive, have been correctly prepared therefrom.

Agreements receivable for sale of land are shown at book value and are subject to realization and provision for losses.

In my opinion the reserve for uncollectable advances to settlers is inadequate.

Subject to the foregoing I certify that, in my opinion, the above Summary and accompanying statements show the financial position of all Guarantees and Advances as at December 31, 1933, according to the explanations given to me, and as shown by the books of the Departments concerned.

JAMES C. THOMPSON, C.A.,
Provincial Auditor.

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. Once the problem is identified, the next step is to define the objectives and goals of the project. This helps to clarify what needs to be achieved and provides a clear direction for the team.

3. The third step is to develop a plan or strategy to address the problem. This involves breaking down the problem into smaller, manageable tasks and determining the resources needed to complete each task.

4. The fourth step is to implement the plan. This involves putting the strategy into action and monitoring progress regularly to ensure that the project is on track.

5. The final step is to evaluate the results of the project. This involves comparing the actual outcomes with the original objectives and goals to determine the effectiveness of the project.
